

Strawberry Mojito

- 8 fresh mint leaves
- 1/2 lime
(sliced into 4 wedges, plus more for serving)
- 2 large strawberries
(chopped)
- 2 tsp simple syrup
(or granulated sugar or honey)
- Ice
- 2 ounces white rum
- club soda

Add mint leaves, two lime wedges, and strawberries to a highball or collins glass. Use a muddler to gently muddle the mint, lime, and strawberries. Add the two remaining lime wedges and simple syrup to the glass. Muddle gently to release the lime juice. Fill the glass with ice and pour the rum directly over the ice. Top off each glass with club soda and stir just to combine. Serve garnished with a sprig of fresh mint, lime, strawberries, and a straw. Enjoy!
